## MADE FROM RECYCLED WATER BOTTLES

This style utilizes **Recycled Polyester (PET)** developed from clear plastic bottles.

**Americans buy 29 billion plastic water bottles each year.** For every six bottles bought, only one is recycled. This is problematic as these bottles are not biodegradable. It takes at least a thousand years for every single bottle to decompose, leaking pollutants into our soil & water along the way.

**Our i3007 has an average of 1.2 recycled plastic bottles in a single cap.** By purchasing this style, you are helping to reduce the harmful effects of pollution on our planet.
